

## Chef Julien Montbabut imagines an unique gustatory voyage at *Le Monument* restaurant in Porto

*Le Monument* restaurant will reopen on June 3rd, proposing an exclusive culinary experience created by the Chef Julien Montbabut.

### A JOURNEY DISCOVERING PORTUGAL

Porto, World Heritage City known as the Undefeated city, gave Portugal its name. This city made French Chef Julien Montbabut fall in love and want to know more of this country.

During 2 years, he explored Portugal, meeting with local producers, looking for the best products in order to bring his greatest discoveries to the table: an exclusive oil from Trás-os-Montes (one of the most traditional regions, land of great customs and flavors), sardines from Pinhais canneries, crab from Vila do Conde, rice produced in a sustainable way in Ribeira do Sado..and many other local products.

### AN EXCLUSIVE & IMMERSIVE EXPERIENCE

After two years touring the wonders of Portugal, Chef Julien Montbabut imagines a 10-courses and 14-courses menus to pay tribute to Portuguese terroir, telling his journey and encounters. Embark on a surprising culinary voyage, cadenced by flavours, tales and surprises, and discover the Chef's influences and inspirations. The occasion for Portuguese people to rediscover their land and for tourists to travel with the Chef who tells his personal experience through each dish. In order to reconnect with its clients, *Le Monument* offers an immersive experience: upon arrival, guests are taken to the kitchen to meet with the Chef and its team while enjoying a appetizer, before being taken to their table to experience an amazing degustation menu in an intimate atmosphere.
